PROFESSIONAL SUMMARY

Full Stack Developer with **3+ years of experience** building scalable, responsive, and high-performance web applications using **React.js, Node.js, Express.js, and MongoDB**. Experienced in developing serverless applications on **AWS**, including **Lambda, DynamoDB, S3, Systems Manager (SSM), Cognito and CloudFront**. Proficient in **Redux, Tailwind CSS, Material UI, REST APIs, JWT Authentication, Firebase, and Agile methodologies**. Hands-on experience with **CI/CD pipelines**, application monitoring using **Prometheus** and **Grafana**, and deploying secure, production-ready applications with a focus on performance, scalability, and reliability.

TECHNICAL SKILLS

Databases: PostgreSQL, MongoDB, DynamoDB, Mysql

Frontend: PHP, React.js, Next.js, Redux, Tailwind CSS, MUI, Bootstrap

Backend: Node.js, Express.js, AWS Lambda (Serverless), Restful APIs

Cloud & AWS: AWS Lambda, API Gateway, S3, Cognito, Cloudfront, System Manager (SSM)

Authentication & Security: JWT, Role-Based Access Control, Authentication & Authorization

Devops & Monitoring: CI/CD Pipelines, Git, Github, Prometheus, Grafana

Tools & Platforms: Firebase, Razorpay, Postman,

PROFESSIONAL EXPERIENCE

Full Stack Developer | *Cloudb Software solutions pvt ltd* | Virudhunagar, India

September 2023 – Current

Project 1: Online Snacks Ordering (Theatre Interval App)

- Technologies: Next.js, Tailwind CSS,, AWS Lambda, API Gateway, DynamoDB, Amazon S3, AWS Secrets Manager, Razorpay .
- Developed a responsive web application for pre-ordering snacks during movie intervals .
- Built a serverless backend using AWS Lambda, API Gateway, and DynamoDB for scalable performance .
- Integrated Razorpay for secure online payments and seamless order processing.
- Implemented real-time order tracking and an admin dashboard for order management.
- Used Amazon S3 and AWS Secrets Manager for secure file storage and credential management.
- Optimized application performance and user experience across desktop and mobile devices.

Project 2: Chit Fund Management System

- Technologies: React.js, AWS Lambda, API Gateway, Amazon RDS (MySQL), Amazon S3, JWT .
- Developed a secure chit fund management platform with member enrollment, auctions, and payment management .
- Implemented separate customer and admin portals with role-based access control (RBAC) using JWT authentication.
- Enabled customers to track chit details, installment history, overdue payments, and account status in real time.
- Built a serverless backend using AWS Lambda and API Gateway for scalable and cost-effective performance
- Integrated Amazon S3 for secure document upload and storage with centralized file management.

Full Stack Developer | *VVV Edible oils pvt ltd* | Virudhunagar, India

February 2023 – August 2023

- Enhanced the EARMS ERP system (PHP, MySQL, MVC) by developing new modules and improving admin panel performance.
- Designed and implemented new business features based on client and stakeholder requirements.
- Optimized SQL queries and backend logic to improve application performance and reduce response time.
- Fixed production issues, performed debugging, and maintained application stability across ERP modules..
- Collaborated with cross-functional teams in an Agile environment to deliver high-quality software on schedule. .

EDUCATION

V.H.N.S.N College – Virudhunagar

2015 – 2018

B.Sc – Information Technology | Tamil Nadu

K.V.S Higher Secondary School, Virudhunagar

2013 – 2015

Higher Secondary 12th – Computer Science & Mathematics | Virudhunagar, Tamil Nadu
